

Project Coordinator

PBX Engineering is an electrical, systems, and software engineering firm in British Columbia & Alberta. We develop leading edge systems for municipal infrastructure, transportation, security, buildings, and industrial applications across Canada and the United States.

The Vancouver office requires a qualified **Project Coordinator** to assist project managers in delivering projects in BC & Alberta.

Position Summary

Working closely with project managers and the Finance Team, the **Project Coordinator** will have direct responsibility for all activities in supporting the coordination and administration of timely and accurate project delivery. This will include the following:

- Contributing to proposals (fee estimates, work plans, etc.)
- Developing and tracking project budgets
- Developing and tracking project schedules
- Forecasting and coordinating internal and external project resources
- Liaising with Clients
- Coordinating contract documentation (POs, subcontracts, etc.)
- Preparing project administration documentation (invoicing, ECNs ,etc.)
- Tracking internal quality control documentation
- Preparing meeting minutes and contributing to project deliverables
- Assisting project managers with administrative functions and processes
- Providing support to senior leadership team including meetings, travel, and ad hoc requests
- Performing other related duties as assigned by the Directors

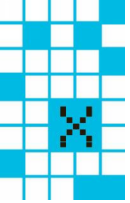

A successful candidate will help support and maintain the company's large and diverse project portfolio, where opportunities for efficiencies will need to be identified and implemented to manage demands related to time and resources as the company grows and workload increases.

We are looking for someone who shares our passion for high quality work and who is interested in contributing positively to our corporate culture.

Qualifications – Baseline

To succeed in this position, you will possess the following attributes:

- Meticulous organization and time management skills
- A sharp eye for detail

- At least two years' experience acting in a project coordinator or project management role involving:
 - Schedule management
 - Budget management
 - Resource coordination
 - Project administration
- Experience with executive coordination
- Strong work ethic and a self-motivated desire to get the job done
- Strong oral and written communication skills and ability to liaise effectively with diverse groups.
- Experience with MS Project
- Strong computer skills including good working knowledge of the MS Office suite
- Ability to exercise sound judgement and discretion in setting priorities and dealing with confidential and sensitive issues
- Ability to work in a fast-paced, dynamic environment, where demands and deadlines shift frequently
- Effective interpersonal skills and a positive, professional attitude
- A sense of humor

Qualifications – Desirable

While not essential, certain qualifications will set candidates apart. These include:

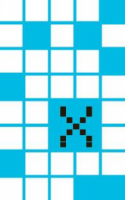

- Formal training in project management or related field
- Experience simultaneously coordinating/managing a large portfolio of small projects
- Experience within the consulting engineering or construction field
- Experience with Primavera
- Experience with Acumatica ERP
- Ability to simultaneously spin plates and juggle balls, dropping none

While relevant experience and expertise is certainly an asset, we are far more interested in finding the right person and are willing to train.

Benefits & Other Compensation

We provide a comprehensive benefits package that promotes employee health and wellness which includes the following:

- Medical, Dental, & Vision Benefits, including short and long-term disability, and life insurance
- Paid time off, including paid holidays, Sudden Illness, Injury & Childcare (SIIC) days
- A Maternity & Parental Leave Top Up Program
- Registered Retirement Savings Plan (RRSP) with company matching
- A Fitness & Wellness Incentive Program
- An Employee Assistance Program
- Annual bonus program based on company and personal performance

Applications

Qualified applicants are encouraged to send their resumes, complete with references, via email to careers@pbxeng.com. Include “Project Coordinator” in the subject line.

Resumes will be accepted until position filled.

About PBX

PBX Engineering offers a challenging and rewarding environment. PBX employs innovative, critical thinkers who enjoy solving problems through creative and collaborative interaction. The selected candidate should be genuinely interested in participating in the mutually beneficial growth and technical development of a very strong and talented group of engineers, designers, finance, and operations personnel.

Our services cover the full project life cycle – from high level planning to splicing wires and testing devices, from the conference room to the construction site.

We support clients and partners with projects ranging in size from small to very large, and in scope from stand-alone to highly integrated.

Our work includes projects that matter on municipal, provincial, and national levels – ports, terminals, ferries, roads, bridges, hospitals, water infrastructure, airports, tunnels, recreational facilities – all the critical things that build strong economies, industries, and communities.

We believe in supporting the long-term career development of our staff through a diverse and challenging workload, industry engagement, and internal and external training. We apply the same effort in fostering a positive social environment as we do in developing innovative and successful projects. We continuously strive to make our firm the kind of place where people want to stay – and our benefits package and approach to compensation are structured to support that goal.
